

Voicemail Quick Reference Guide

When you can't or choose not to answer the phone, MobileNation Voicemail takes the calls for you. Voicemail plays your personalized greeting and records the caller's voice message 24 hours a day, 7 days a week.

How to set up your Voicemail

From your wireless phone, dial your 10-digit wireless number. Members will be asked for a password to enter the voicemail system. By default, the password is the members phone number without the area code. If the number is 731-555-1111 then the password is 555-1111. Enter the password on the phone keypad and press the # key. Members will then be prompted to enter a new password. Once entered, password will be played back, to confirm the password press the # key, to re-enter a new password press 2. Members will then be prompted to record their name and greeting.

How to access your Voicemail

From your wireless phone or a landline, dial your 10-digit wireless number. From a landline press * during your recorded message to access the voicemail menu. Accessing voice mail from your wireless phone uses airtime. After accessing your voicemail:

- Enter your password
- Follow the prompts to retrieve your messages

To access your mailbox, 1) Dial your mailbox number. 2) Press *
